RoadGuard

The RoadGuard is a heavy-duty road mat that sets the standard for durability and performance in challenging environments. Made from 100% recycled HMWPE, its solid, puncture-resistant construction is ideal for heavy equipment and features a durable design with aggressive tread for grip and stability. It's perfect for projects in industries like Construction, Oil & Gas, Utilities, or any rough terrain. Suitable for all weather conditions and pin connections for stability.

Product Specs

Size	7' x 14'
